SITE WALK NOTES
INLAND WETLANDS COMMISSION
SATURDAY, APRIL 11, 2015

On Saturday, April 11, 2015 an Inland Wetlands Commission site walk was performed beginning at 9:02 AM on the south side of Sunset Hill Road at an existing logging trail located at the boundary between proposed subdivision Lot 1 and Lot 2 identified in Wetlands Applications SUB15003 and IWA15004 by Frog Rock, LLC. In attendance were Inland Wetlands Commissioners Fran Morano, Ron Tillen, H. Charles Obert, and Peter Ricard. Also in attendance was Gavin Paquette, member of Frog Rock LLC., Janet Blanchette of J&D Engineering, Inc., Alvin Hill and myself.

The purpose of the site walk was to review site conditions in wetland/watercourse areas proposed to be graded for the construction of a driveway for a residence on the property (Assessor's reference Map 103, Block 40, Lot 3E).

Beginning at the existing logging trail the group walked south to the alignment of the proposed driveway and then walked the driveway alignment to about 100 feet north of a stone wall that marks a former northern property boundary for the residence to be serviced by the proposed driveway. The group turned around and retraced the entire driveway alignment to its terminus on Sunset Hill Road. The meeting ended at 9:38 AM and the group disbanded.

Respectfully Submitted,

Marla Butts
Wetlands Agent
