SELECTMEN'S COMMENTS

Mr. Groh expressed his appreciation to the Quinebaug Fire Department for hosting this meeting. Mr. Groh stated that the Quaddick Road Bridge is now a one lane bridge. The NECCOG engineer worked with the State of Connecticut on this bridge and stated that the center of the bridge is safe. It will need to be repaired and funding sources are being explored. The State of

Connecticut wanted to close Quaddick Road until the bridge was repaired. Mr. Groh stated that this will be avoided if possible.

Mr. Groh stated that there will be a state-wide Emergency Management Drill on July 28 and 29, 2012. Mr. Benoit, Emergency Management Director, stated that plans are being scheduled to include all the fire departments in Thompson.

Mr. Groh reported that he had attended a regional economic marketing meeting this morning at NECCOG. Other attendees included representatives from the Chamber of Commerce, Quinebaug Valley Community/Manufacturing College, and the CERC (Connecticut Economic Resource Center) marketing firm. There was a report of efforts in the northwestern part of Connecticut, local unemployment, and opportunities to promote this region. Additional discussions have been scheduled.

Mr. Groh will research this issue with Town Attorney and/or the insurance carrier.

Mrs. Forrester stated, that for corporations, these documents are filed annually and include the names and addresses of officers and agents.

Mr. Gaucher expressed concern regarding blasting on Reardon Road yesterday. Mr. Groh stated that this is an approved industrial park with permits to blast and extract gravel. The Zoning Enforcement Officer has asked the company to cease blasting and to come in front of the Planning & Zoning Commission at their July meeting due to this substantial blast that occurred on July 16, 2012. Mr. Gaucher expressed concern regarding the sewer lines in the area.

Mr. Gaucher reported that CT State Police responded to a break-in at the liquor store in Grosvenordale last night.

There was a discussion of the specifics of debris removal and Mr. Groh read a memo outlining the expectations. He requested that Mr. Baer submit a written list to him of these questions so that he may examine these questions.
